

Glass Aggregate

Glass aggregate
is smooth and
safe - no sharp
edges. It will not
cut.

OK to drive or
walk on it - even
barefoot!

...as these
kids are
discovering.

Crushed glass garden sculpture created by Recycling Systems Hawaii for the Honolulu Zoo.

Pavers made with Pulverized Glass

How does glass sand perform in beach applications?

Take a look...

These sand sculptures were made at Crystal Beach, Lake Hood, New Zealand. Crystal Beach is a 100% recycled glass beach.

Glass Beach in Ft. Bragg, California is, as the name suggests, composed of glass aggregate.
